Safe Harbor Statement

The following is intended to outline our general product direction. It is intended for information purposes only, and may not be incorporated into any contract. It is not a commitment to deliver any material, code, or functionality, and should not be relied upon in making purchasing decision. The development, release, and timing of any features or functionality described for Oracle's products remains at the sole discretion of Oracle.

Demand-Driven Manufacturing

Supply Driven

3. Sell to production capacity
2. Build and stock inventory
1. Buy supply to forecast

1. Sell to customer-specific requirements
2. Produce to demand
3. Pull supply in real time

Demand-Driven

Historic Manufacturing Software

Supplier

Manufacturer

Customer

Supply Driven: Push

Require

- Forecast-based “push” supply management
- Focus on direct material procurement only

Regulate

- Traditional supply driven transaction intensive manufacturing
- Standardized solutions architected for static manufacturing environments

React

- Point-in-time demand forecasting
- No real-time collaboration

The Oracle Demand-Driven solution

Supplier

Manufacturer

Customer

Demand Driven: Pull

**Integrated
In-Bound Supply**

- Strategic Sourcing
